

LHE Board Meeting

March 7, 2024

- **Minutes**Landscaping
- Roofing
- Postal service
- Streetlights

Diana has spoken with JW who said the usual Landscaping plans are on schedule despite his health issues. Fortunately, it has been a mild winter and Wayne has already started with the Spring clean up.

Anthony from Our Town Landscaping will be here on March 20 to prune the crabapples.

Jim got quotes for the roof replacement jobs this year and it was decided that Building # 3 will have its roof replaced this spring. Once the schedule is confirmed, Jim will send out the dates.

The problems with our new mail carrier continues to be quite an issue. Routinely, residents are getting other residents mail and packages. Packages have been left in the open at the kiosk and this is completely unacceptable. Many residents have gone to the post office to voice their concerns, but the problems continue to exist. The Board is writing a letter from the Association to the Postmaster and hopefully our mail delivery will get back to our dependable "Newell" days!

Finally, some of the streetlights need their bulbs replaced. Doug will fix them in the next week or so.

Respectfully submitted.

LHE Board of Directors

Jim Bilodeau
