Julie:

This is a list of material that our attorney, James O'Nash, said he needed in order to file our taxes. As it involves dates from July 01/07 to June 30/08, you can send it anytime your finished with the current year. If he needs something else, he will let us know.

As our mentioned earlier, the small amount we owed the IRS was due to our not sending in an estimate... we hadn't had to do that for quite some time, so it wasn't done. Maybe you need to ask him if we should automatically send something anyway or just wait to see. Which is the better approach to protect the association's credit?
