We discussed the concerns about existing problems. First, the pitch of the road coming up here. The crowning of the road doesn't allow water to run down the gully.

The dishwasher heating units.

The fact that furnaces must be cleaned once a year.

Nails are coming out of the front of building number two.

Cars parked in the visitor parking area and being left there.

More shingles have fallen from the roof of building number 1. This must be repaired immediately. Lee will contact someone to repair the roof and inspect the roofs of the remaining buildings.

**FOR DIRECTORS &
OFFICERS ONLY
DELETED FROM
GENERAL OWNERS
COPY** [We considered sending a letter to the Lisle Fezette Revocable Trust listing concerns related to the quality of the workmanship and materials used and decided that such a letter might damage our relationship with Woodmaster.

Two end units have had leaks in the sun rooms due to the snow build up on the rear of the garage roof and the sun room roof. After this notification the Association won't be responsible for damage caused from leakage. It will be the responsibility of the owner to have the roof shoveled off.

Lee will review estimates for 1993 Maintenance Contract with On the Mark.

We again mentioned the need for a sign on the hill saying this is a Private Drive.

This meeting was adjourned at 9 P. M.

Respectively Submitted
